Objective

Seeking a HSSE Manager Position in Quality, Health, Safety and Environment in a vibrant and growth oriented organization where I can utilize my experience and skills to achieve the organizational goals, overcome the emerging challenges and subsequently raise the HSSE efficiency of the company.

Professional Summary

My career started as HSE Officer Cadre and now I have more than 20 years' experience in Construction, Civil, Electrical, Mechanical, Oil and Gas projects, maintenance and services including 10 years on site (Onshore) and 10 years corporate managerial experience as PDO approved HSE Professional & qualified ISO: 9001: 2015, ISO: 14001: 2015, ISO: 45001:2018, API Q1 9th Ed internal auditor & Lead Auditor (QMS) and Environmental Manager (IISC Bangalore).

The knowledge, people management and influencing capabilities helped me to cultivate sound leadership skills that are the key to sense the pulse of subordinates, employees and the safe way work practice. I have maintained very high standard of Teamwork, and have imparted training to one and all with me and achieved the desired goals in an effective manner. Now I have got deep & Practical knowledge on Health, safety and Environment standards in Oil & Gas and Power Plant Construction, maintenance and services. Adding my existing skills like people management, leading a team, **Training capabilities** along with the Quality, Health, Safety and Environment will contribute more to QHSE functional area. Holding Valid **Indian & Oman driving license**.
