Client: Ministry of Agricultural, Fisheries Wealth and Water Resources

Location: Oman Muscat, Al Khoud

Value: 45 Million OMR

Designation: Senior Earthwork Engineer

Support all earthwork works at site and reporting directly to the Earthwork Construction Manager.

Main tasks include, but are not limited to:

- Ensure that sufficient information is available on drawings and sketches to set out the works in accordance with the Program of the Works and to resolve any inconsistencies in the information provided including feedback to the Earthwork Construction Manager on any changes made.
- Complete inspection, test plans and risk assessments for the control of the works ensuring that all necessary documentation, as required by these statements and plans, is always available at site.
- Control of the setting out of the works in accordance with the contract requirements before work is programmed to commence.
- Develop 3-weekly Work Programmes with Earthwork Construction Manager, simple benchmark productivity measures for the workforce and assess productivity achieved for review at weekly progress meetings.
- Communicate with foremen, gangers, workforce and sub-contractors to ensure full understanding of information provided.
- Keep a full and accurate daily site diary, including any changes / variations, subcontractors' attendance, and records of work-related.
- discussions with the Engineer's representative. Ensure that comprehensive records of resources employed on additional works are maintained.
- Control site measures of materials to allow them to be controlled efficiently.
- Check the works during progress and on completion to ensure that it has been constructed in line with the setting-out information provided, measured and signed off before covering up and that information is passed both to the Quantity Surveyor and the Earthwork Construction Manager.
- Take receipt of materials and check description, quality, markings and condition before signing the delivery receipt.
- Ad hoc duties on site as job requires.
